

PEPTICATE™ JOURNEY TRACKER

USE THIS TO MONITOR YOUR LITTLE ONE'S PEPTICATE JOURNEY

NUTRICIA
**RELIEF
PROMISE
PROGRAM**

We recommend evaluating symptoms on **DAYS 1, 7, and 14** of Pepticate use

CRYING & FUSSINESS

When it comes to crying or inconsolable fussiness, how many hours per day is your baby unhappy to the point that you cannot make him/her happy?

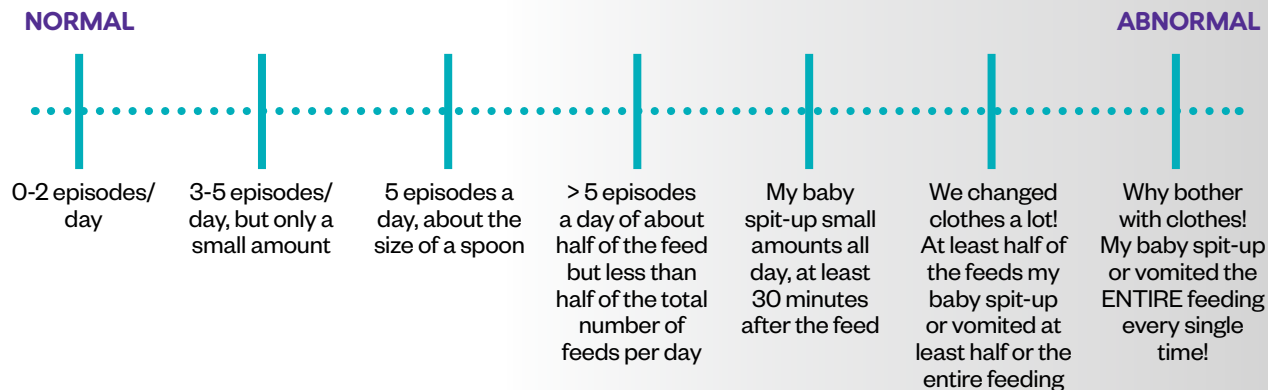

SPIT-UP & VOMITING

Let's talk about the stuff that comes back at you after a feed!

Spit-up refers to easy or gentle flow of stomach contents out of the mouth, often with a burp.

Vomiting is forceful flow of stomach contents out of the mouth.

In the past week, how many episodes of spit-up or vomiting were there?

You should see some symptom improvement within 14 days.

If you are not seeing any improvement, talk to your doctor to see if Neocate® is right for your little one.

Brought to you by Nutricia North America.

Pepticate™ is a hypoallergenic, extensively hydrolyzed infant formula for use under medical supervision and is indicated for cow milk allergy in infants from birth to 12 months.

Neocate® is a family of hypoallergenic, amino acid-based medical foods for use under medical supervision and is indicated for cow milk allergy, multiple food allergies, and related GI and/or allergic conditions. Talk to your healthcare provider to see if Neocate is right for your baby.
